MIMOTA IS THE MOST
COMPREHENSIVE DATABASE
SYSTEM AVAILABLE FOR
COMMUNITY DEVELOPMENT AND
MICROENTERPRISE
ORGANIZATIONS TO **RECORD,**
TRACK, AND **REPORT** ALL
TRANSACTIONS PERTAINING TO
LOANS, DONATIONS,
INVESTMENTS, GRANTS, AND
TECHNICAL ASSISTANCE.

CONTACT MANAGEMENT Store complete contact information including unlimited addresses, up to 18 phone numbers, family details, email, etc. Assign one or more designations to every contact to identify the relationship of the contact with your organization and create an unlimited number of categories to group contacts. You can also make notes, assign next actions, and track progress with an individual. With the built-in document generator you can now create letters and mailing labels with ease.

RELATIONSHIPS How can you know that your favorite donor is also a board member of the new organization you are approaching for a grant? The Relationships module tracks the relationship of a contact with other organizations and contacts in your database. You can take advantage of your donor's "areas of influence" and improve your chances of winning a grant or investment.

TECHNICAL ASSISTANCE Manage all your projects, groups, and events from one centralized module. Track all the technical assistance you provide and generate reports on the outcomes and measures. You can add an unlimited number of projects for any contact and track the progress in every step of the project.

IMPACT MEASUREMENT What impact does your organization have on the community? Impact Measurement captures the diversity of benefits from your work and generates simple-to-understand reports. Record, track, and report the impact from a loan or from the technical assistance you provide.

MONEY OUT The Loan module provides exceptionally flexible behavior that allows you to customize terms, rate, repayment conditions at the line item level for every loan. The Loan module creates compelling Excel spreadsheets that provide exhaustive information on every transaction, and it allows you to create amortization schedules, promissory notes, agreement forms, receipts, and reports with a few button clicks.

MONEY IN One centralized system to manage all donations, grants, and investments. Money In is equipped with the tools you need to achieve all your fundraising and fund management goals. Grow your relationships with donors, investors, and foundations by sending periodic emails, newsletters, and updates through the built-in reporting and mail merge functionalities.
